Kentucky River Delegations.

Representatives Langley and Ben-Virginia, and Johnson, of Ohio, appeared before the Rivers and Harbors Committee on Monday last in behalf of improvements on the Ohio river through the construction of lock and dam No. 29, and the Big Eandy river, with the Tug and Levisa forks. The delegation included Douglas Putnam, W. A. Ginn, W. B. Seaton, Dr. M. Wade and John Stewart, of Ashland, and Mordecai Williams, W. C. Harper, W. A. Patton and G. W. Gunnell, of Catletts-

Mr. Stewart and Mr. Patton both addressed the committee for the Ohio river project and Mr. Langley for the Big Sandy. The members believe that the forthcoming bill wil carry an appropriation for the Ohio river lock and dam, an additional lock on the Kentucky river, as well as sufficient money for the Big Sandy to expend in the next fiscal

___x_ Sensational Story.

Quite a sensational story comes

the amount ofm oney which the Justis woman had in her possession that certain people who were said to be well to do had been particeps criminis in the crime.

Almost in the same neighborhood of where the Meadows tragedy took place, Sam Blake was killed recently by Harry Pennington and the latter was arrested and hanged by a mob at Hurley, across the line in Virginia. It is said that Pennington, while pleading with the mob to spare his life, stated that if the mob would permit him to live but three days longer he would divulge secret that would be worth \$60,-000 to somebody, but did not tell who that somebody was, and the mob failing to realize how important Pennington's secret might prove to be, paid no attention to his statement but executed him at once.

Since then there has been great interest taken in these cases and the announcement is now made that had Pennington been permitted to live some information which would have startled the three states would likely have been obtained from him, but it now appears that these interesting secrets lie buried with Pennington at Hurley, and may never be discovered.

Dropsy Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

Senator Prichard's Bills.

Senator J. T. Prichard, of Boyd county, introduced two bills, one providing that county school superintendents may be indicted for malfeasance in office and another changing the time of holding court in the Thirty-second Circuit Court district. He said that the law is silent relative to malfeasance on the part of a county school superintendent, and that he wished to correct it. The judge of the Thirty-second Circuit Court district, he said, requested him to have the time for holding court in that district changed, but he does not know why.

High Prices for Eggs.

Eggs are selling for more money than ever before, and the demand continues to increase faster than the supply. In New York and Boston, fresh eggs are selling for 60 cents a dozen, and the price is high in all parts of the country.

The certainty that eggs will never again be sold at 10 and 15 cents a dozen makes it important that the hen should be aided in every way litter and lets them work for it uner's pocket by laying the "golden egg" in the nest.

Worth Knowing.

No Man is Stronger Than His Stomach

strong who is suffering from weak stomach with its copsequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and deent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood,

invigorates the liver, strengthens the kidneys, zourished the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

Laymen's Missionary Convention at Huntington This Month One of the Notable Inter-Denominational Conventions Being Held In the Principal Cities of the Country-Meets Jan. 26, 27 and 28.

The Huntington, West Virginia, convention of the Laymen's Missionary Movement, which will be held Jan. 26, 27 and 28, promises to be the greatest and most notable religious gathering in the history of the tristate region and its surrounding ter-

The Huntington meeting is the twenty-sixth to be held under the pices of the National Missionary Movement and is one of the great ng held in 75 of the principal cities of the country. The campaign has been in progress since October and will terminate with the meeting at St. Paul April 28-29. The culmination I the entire movement will be the e National Missionary Conto be held in the Auditorium at May 3-6. A Call to Men.

Laymen's Missionary Moveent is essentially a men's moveat. It appeals to the mannood of rica to discover and discharge its. full measure of Christian responsibil-Christian men must recognize trust committed to them. The is to the men of this nation, ES-ECIALLY THOSE WHO ARE BUSI-T AND MOST RESPONSIBLE, to ut first things first, and to so adjust heir affairs as to be able to take their full share in the effort of united Christianity to bring about the conversion of the world. What God cominds us to do He has promised to fulfill in us through our obedience. This movement is interdenomina-

onal, and purely educational and piritual in character, and the bject to secure from Christians in merica a recognition of the nations ligious responsibility for the world. At these conventions no attempt will be made to secure subscriptions. The

nent does not send out mission-Its purpose is to assist the churches in enlarging their missionary work to meet the spiritual neceses of mankind, and the evangelization of the world in this generation. Amazing Growth of the Movement.

When the eranest-hearted Christian n met in the east something over two years ago and organized the en's Movement, it is possible they did not comprehend the effect their action was destined to have in bringing Christian men of the nation to a realization of their personal responsibility to God for the evanger onsibility to God for the evangelsame nucleus the movement has spread with such amazing rapidity and throughout such a large expanse of territory that it is hard to realize its present scope and possibilities.

This widespread missionary awaking is at once a sign and a promise. It is a sign that Christians are ning to look on the fields white the harvest and on the lack of rers. It is a promise that Chris-Hans intend to consecrate themselves o sacrificial efforts to obey the Great ommission. It was to accomplish this purpose that the Laymen's Moveent came into being. Its growth is indication of what God will do en the Christian men of the nation selves into harmony with eternal purpose; when they dediate to His service their brains and rgies as well as their money. Its sults can not be accounted for part from the abundant blessings of God upon the effort to enlist the arch in her primary task of evanlizing the world.

Great Preparations Being Made. Great preparations for the Huneting are being made by ocal committees, and the attendance is expected to be very large-probably reaching 1,500. That this estimate may not be far wrong may be from the size of the district the Huntingon Convention. district includes the city of Hunn, the counties of Cabell, rne, Logan, Mingo, Lincola, Put-Kanawha, Mason, Jackson, oane, Boone, Clay, Fayette, Raleigh, Wyoming, McDowell, Mercer, Sums, Monroe, Greenbriar and Nichoas in West Virginia; Meigs, Gallia, awrence, Jackson and Scioto in hio, and Carter, Montgomery, Maoffin, Johnson, Martin, Floyd, Ellot, Morgan, Rowan, Bath, Greenup, Boyd, Lawrence and Pike in Kentucky.

The ecoperation of every Christian man in the district is most to this convention. parnestly requested, in making this

meeting a success. The campaign calls for united prayer and service. Pray for the meeting as well as for the success of the entire movement. Rally around the standard of the King of Kings. Volunteer your services to your pastor for your local work, and above all assist in securing adequate representation from your church and your entire community at the convention.

Many Prominent Men Will Speak. A program of exceptional interest

is in preparation and the convention will be addressed by men of national prominence in business as well as church circles. Many have already definitely promised. Among the subjects to be considered are: "What Is America's Share in the Evangeliza-tion of the World? What Part Have Men In It? How Is It to Be Done?" The convention will open on Wednesday evening, January 26th, with a

supper, and will continue through the 27th and 28th. It is desired that those expecting to attend notify the secretary of the Hunington committee in advance, and register. The committee is compiling all necessary information regarding hotels, rates and accommodations, which will be furnished upon request. Delegate enrollment blanks, application blanks for the Huntington Convention supper and literature in connection with the movement may be obtained from ominational conventions be- G. R. Heffley, Office Secretary, 414 Ninth street, Huntington.

The payment of the registration fee of \$1 entitles the delegate to a seat on the floor of the convention. This fee is used to defray the expense of the meeting. Admission to the supper will be by ticket, costing 50 cents. Registration fees and payments for supper tickets should be sent with enrollment blank and application.

The Big Supper

at the Laymen's Missionary Convention will be a gathering long to be remembered by those who are delegates to this meeting. Huntington will be honored by a gathering of representative men from a radius of more than one hundred and fifty miles. Good things to eat, good speeches and a social session that will insure a full attendance at the sessions of the convention to follow. By sending for a registration blank and a supper ticket today you will insure a seat.

Arrangements have been made for some of the foremost missionary speakers in this country to be present at this banquet and during the following sessions. If your church or your community lacks enthusiasm on missionary subjects, send a few of them to this convention. Huntington extends a warm hand of greeting to Il visitors and delegates to this

No Collections Allowed.

During the Laymen's Missionary Convention in Huntington, W. Va., which meets on the 26th inst., no collections will be taken for anything. It is not a question of what you will give, but what you will receive in new ideas, new ideals, and new methods of work. Organized Christianity is going to bring the world to Christ neration. This movemen is but the working out of a systematic plan which promises the solution of the entire problem that has engaged the church since the days of the Apostolic Fathers. This convention is but a single part of the plan to have America lead in this work. A registration blank from the office secretary of the Laymen's Missionary Movement in Huntington, W. Va., will insure a place in the convention hall. It takes a postal card to bring additional information.

Will Not Raise a Dollar. One of the surprising features of the Laymen's Missionary Movement to many is the fact that they do not attempt to directly raise a mission fund. The purpose of the Huntington Convention, which convenes on the 26th inst., is not to raise money for missions, but to raise a missionary spirit that will produce an increase in missionary endeavor through the regular denomination channels. They are sowing the seed of a nation-wide campaign to be reaped by the various churches of all denominations in the United States. Worldwide missions is the theme, and to civilize and Christianize those savage and semibarbarous people who, through increased trade relations and transportation facilities, have become in truth our next door neighbors. If you want to catch the real spirit of missions send in your application to the Huntington headquarters for a seat in the convention.

Men and Missions. Until quite recently, most people held to the idea that the ministers and the women had an exclusive right to the field of missionary endeavor, and in fact they had, until quite recently, when the men of the nation, influenced by the stirring campaign inaugurated by the Laymen's Missionary Movement, with headquarters in New York city, have taken hold of the spirit of missions in its broader sense and have begun

to make worldwide missions a business. The Huntington, W. Va., convention, which occurs on the 26th, 27th and 28th of this month, is but a link in the chain of large conventions at which some of the foremost apeakers in the mission field will take

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE.

The voice of duty is never still. It whispers to us morning noon and night; it reaches us from the roar of the wild tempest, the sigh of the summer winds, the soft, gentle murmur of the wayside brook. That still small voice will not be hushed.

What volumes our faces say! Some speak of love and kindness, some of anger and hatred, others of pride and rebellion, and others still of selfishness. We can't help our faces talking, but we can make them say pleasant things; and all should try to have them do so.

How is your two-weeks'-old resolution, does it stick? Now if you happen to slip, jump up instead of giving up. Be on the "try" instead of on the "yield" and the end of the year will find you stronger, better, of lighter heart and somewhat imperfect, than if you "declare there's no use," and fall completely back in the old way thick with the bogs of "bad habits."

The people who have so much sympathy for those who have gone beyond all earthly help, might use a little of it in everyday life to a good and excellent purpose. The idea of kicking people when alive and then for a person to weep over their grave when dead is what too many of us do and is one reason why the world is no better today. Speak your kind words to the liv ing, and when you are dead you need not care what is said of you.

Country life may involve hard work and the missing of many pleasures obtainable in cities, but the mother who has the chance of bringing up her children in health and away from the temptation of cigarettes and saloons, has a great advantage; and if she succeeds in bringing them to maturity in unblemished health and purity, she has already done a good work in the world. If she has taught them has given them one safeguard. The boys probably will not thank us for advising against feeding them much on pies and doughnuts, but it's good advice, nevertheless.

God sends every bird its food, but He does not throw it into the nest. He gives us our daily bread, but it is through our own labor.

Irwin Campbell and Miss Edith Webb, daughter of J. M. Webb, of Willard, were married Christmas day at the home of the bride's parents and left on the C. & O. west bound for the bridal tour. They are two of our most popular young people, and this paper extends congratulations.—Grayson Bugle-Herald.

Miss Beatrice, the 16-year-old daughter of Col. and Mrs. Geo. W. Middaugh, very nearly met a horrible burning-perhaps death-Tuesday morning at her home on Laurel street. While standing before the grate the rear part of her skirts caught fire. On discovering it the girl screamed and started to run out of the house without trying to extinguish the flames. Her mother was in the next room and hearing her cries, ran and tore the burning clothing off her; in doing so, she received a painful burned hand. The girl's outer and under skirts were burning on her almost up to her walst when the mother tore them off and the flames scorched her nair and neck. Outside of that she was not injured, save badly frightned. Greenup Gazette.
